FINED \$50 FOR HAVING "BOB" VEAL

With Intent to Sell—Cam- paign of State Board of Health Produces Four Local Suits.

Myer Dwaratzki, a local butcher, pleaded guilty in the District Court yesterday afternoon, to having had in his possession, with intent to sell, what is known as "bob" veal. As told last evening, Dwaratzki was also sued by the same agency yesterday on the charge of having had in his possession, with intent to sell, beef that was diseased. Decision in this latter suit was reserved by Judge Woodbridge.

The defendant was represented in both actions by Alfred S. March and testimony was given in the "bob" veal suit by Dr. Isaac H. Shaw, inspector of the State Board of Health, who told of finding two calf carcasses in the slaughter house on upper French street, (formerly Boudinots) which, upon examination, were found to be under four weeks old. The witness detailed the tests by which the age of the veal was ascertained and Attorney Stryker, for the plaintiffs, brought out that one of the carcasses was that of a calf less than three weeks old.

Dr. Shaw said he had questioned the defendant regarding the ownership of the calves and Dwaratzki had told him they belonged to Max Schatzman and himself, as partners. The defendant had also told witness that he expected to sell the smallest of the calves for 11 cents a pound and had admitted that this calf was only three weeks old.

When the examination had proceeded thus far, Mr. March stated that his client was willing to admit his guilt, but pleaded ignorance of the law forbidding the sale of veal under four weeks old. It was stated by Mr. March that under the Hebrew law, a butcher may kill and sell for food, calves that have attained the age of eight days. A penalty of \$50 was imposed by Judge Woodbridge.

REED OBJECTS TO ELECTION OF SUCCESSOR

Harbormaster Shows That He is Irremovable Because an Exempt—Suggests that Council Establish a Regu- lar Wharfage Fee.

Benjamin Reed last night sent to Common Council a letter protesting against the election of Michael White to succeed him as Harbormaster. Reed is an exempt fireman and cannot be removed, according to the new law passed last winter.

Mr. Reed also made some suggestions to the city for the increased efficiency of his office. He thinks a regular fee should be established for wharfage at the city dock, and boat owners informed of the same.

The letter, which was referred to the Finance Committee and City Attorney, was as follows:

"From the newspapers, I learn that your Honorable Body attempted to elect a Harbormaster in my place.

"I would respectfully advise that on January 1, 1910, I was elected Harbormaster by reason of being such exempt fireman of the Common Council of said city, and since that time performed my duties as Harbormaster of said city.

"I would further advise that I am an exempt fireman of the New Brunswick Volunteer Fire Department, and have been such exempt fireman for a number of years and that my position as Harbormaster by reason of being such exempt fireman is protected under an act of the Legislature of this State, Chapter 212 of the Laws of 1911, which act provides that no person now holding a position of office of any city government of this State and whose term of office is not now fixed by law, and who is an exempt fireman of any volunteer fire department in any such city holding an exempt certificate for that office shall be removed from such position or office.

"I would further advise that the term of office of Harbormaster of the city of New Brunswick is not fixed by law—there being no stated or fixed term for said office.

"I would respectfully advise that I held an exempt fireman's certificate from the fire department of the city of New Brunswick, and have served as a volunteer fireman for thirty-two years, and that any action on the part of your body to remove me from office or to elect any one else in my place is without warrant or authority of law.

"The above law was, no doubt, passed from the fact that the legislature and Governor of our State recognized the many sacrifices made by volunteer firemen, losing their time and oftentimes their lives for their fellow men, and demanded that volunteer firemen should be protected in any public office or position which they might be called upon to fill.

"I would further advise that I still retain my office and am performing my duties, and I now report to you that I am ready and willing at all times to perform the duties of my office.

"I would report to your Honorable Body that the code of ordinances regulating the duties of Harbormaster do not provide for any stipulated fee or sum for wharfage to be paid by owners or masters of boats which lie or tie at or off of any city dock, wharf or slip. I would therefore recommend that some stipulated sum be fixed by your Honorable Body as a fee for tying at the city wharfs or docks, so that I may notify such owners or masters of vessels and collect such fees for the city of New Brunswick."

PETITION IS OUT FOR ROOSEVELT

Made Its Appearance at Monmouth Junction and is Now Here—Robert Car- son is a Leader of the Boosters of Ex-President.

A petition urging Former President Theodore Roosevelt to allow his name to be placed on the primary ballot in New Jersey as a candidate for the Republican nomination in being circulated in this city. The gentleman who had it in charge admitted this morning that such was the case but said he didn't want to have his name mentioned in connection with it.

This petition is one of those started by Postmaster Mackay of Rutherford, who is credited with starting the militant Roosevelt movement in New Jersey. One was sent to each county. The Middlesex paper went first to Harvey Melshon, of Monmouth Junction, a friend of Mr. Mackay, and he got a bunch of signatures in that part of the countryside. Now the paper is wending its way about New Brunswick, and at present has about 400 autographs on it.

No effort is being made to get politicians' names on it, for the sponsors say that all they think Col. Roosevelt would give more consideration to an appeal from the "plain people."

Nevertheless there is no doubt that there is quite a goodly bunch of Republican politicians who are taking up Roosevelt in good shape, including Robert Carson, the former Collector of the Port of Perth Amboy. Mr. Carson, indeed, would be ungrateful were it otherwise, for Col. Roosevelt twice named him Collector, and all Taft did for him was to name somebody else. It is noticeable, too, that practically all the Roosevelt politicians hereabouts are of Mr. Carson's faction.

On the other hand the opposite, or "Strong" faction is almost to a man in favor of Taft, and will be found working for him when the primary day rolls around. The Carson faction, of course, is weaker now than ever, but the popularity of Col. Roosevelt hereabouts is very great, and it is by no means certain that he could not get the primary endorsement without the support of any faction at all.

One of the most interesting facts concerning Mr. Carson's Roosevelt support is his close relations, political and business, with Former United States Senator John Keen. Senator Keen is distantly related to Col. Roosevelt, but it was said that the two were in very close political accord during the Roosevelt administration.

\$55,000 FINE FOR OIL TRUST

(Special Dispatch to Home News.) BUFFALO, N. Y., Jan. 23.—Judge John R. Hazel, sitting in the United States District Court to-day, imposed a fine of \$55,000 upon the Standard Oil Company for violation of the Elkins Law in accepting rebates on shipments of oil from Olean, N. Y., to Burlington, Vt.

The Standard was found guilty upon 145 counts, and under the provisions of the law a maximum penalty of \$20,000 was possible in each count, which had such a fine been imposed, would have aggregated \$2,925,000. The case has occupied the attention of the United States District Court for more than a year.

SONS SAY FATHER IS A FRAUD

Dr. Charles Smith, Who Claims to Dispense Elixir of Life, Is 77, Not 136, as He Claims, and His Sons Submit the Facts.

Dr. Charles Smith, the elixir of life man, who held out to many the hope of attaining longevity by bathing in various magic waters, is a fraud, pure and simple. As authority for this there was presented at the Home News office this morning a signed statement, made out by the doctor's two sons.

In this statement the doctor's real age is given as 77 years, instead of the 136 to which he has often laid claim. So those who some years ago paid small fortunes to the doctor for admission to his Lawrence Brook colony, and later to his Egg Harbor colony, that they might attain the longevity which had been his lot, and which he assigned to the fact that he had bathed in a "fountain of youth," can credit those expenditures to experience and remark that at least they helped assure him a comfortable old age. For since the time that the local Board of Health forced the abandonment of his Lawrence Brook colony fifteen years have elapsed, which makes the doctor's age at that time only 62 years, according to the sons' statement.

This statement has been given out by the sons as a result of a trip which A. E. Smith, of Talmadge

WOULD EXTEND SIX OF THE CITY STREETS

Alderman Seiffert Wants Condemnation Proceed- ings Started Right Off to Acquire Lands.

The street extension question was promulgated on a grand scale at Council meeting last evening by Alderman Henry Seiffert, who moved that the City attorney be directed to prepare an ordinance for the condemnation of lands necessary for the following extensions: Plum and High streets to Hamilton; Dennis street to Albany and John; Kirkpatrick to French; Nichol and Jones avenues to George's Road.

This at once precipitated a discussion, led off by Alderman Feaster, who wanted to know where the Nichol avenue extension would come out, as Nichol avenue, as laid out on the maps now does not go to George's Road. Mr. Seiffert said there would have to be a new course.

Alderman Skeewis said that he had advocated Plum and High street extensions for some time and was heartily for it, but he thought Mr. Seiffert's Second Ward project contemplated some magnificent distances, as the Nichol avenue extension meant something like 1,000 feet to be covered.

"If this was something to benefit your ward, wouldn't you be for it?" Mr. Seiffert asked.

"When any proposition is made for the beautifying or the improving of the city of New Brunswick, you'll find Alderman Skeewis for it," replied the Fifth Ward Alderman, "but there are some other objections to this proposition. Last year the matter was taken up and the city attorney said that we could not start condemnation proceedings until an effort had been made to acquire the desired property at private sale."

Alderman Kinney said that efforts had been made to get from Prof. Haebrouck the land required for Plum street and the owner had said he would deed the land over when he had sold off the rest of his lots, but had not done so. He thought the matter should be taken up again.

Alderman Nicholas asked what had happened to the Nichol street extension project. City Attorney Tindell said that some of the papers had been turned over to him and he was expecting the others soon.

Mr. Seiffert's motion was referred to the Finance Committee.

WILL THE STATION BE MOVED?

New Site Will Be Necessary if Six Tracks Are Put Through—Janeway & Car- pender Tract Said to Be Considered.

If the Leavitt bill permitting the Pennsylvania Railroad Co. to condemn lands for the construction of a six track line through the State goes through, there will necessarily have to be some important changes in this city, and it is said that there will be a new site selected for the station, as the present one cannot be built out any further towards Albany street. Several interesting rumors have been heard concerning possible sites.

One of these is that the site of the old Janeway & Carpenter factory will be secured for the station. This plot has been vacant since the fire nearly five years ago.

Another interesting report is that the railroad wants to have Washington street abandoned and to move the station up about half way to George street, facing Albany street, for an entrance from that thoroughfare. It is said that the plans contemplate putting the two additional tracks on the east side of the present line, in which case the closing of Washington street would be necessary.

Another story has it that the Pennsylvania doesn't contemplate placing six tracks through New Brunswick at all, but only in the open country districts where the expense would be comparatively small.

JAMES NEILSON WAS RUN DOWN BY TROLLEY

Reports to Common Council Accident on George Street and Says No Bell Was Rung.

James Neilson sent a letter to Common Council last evening stating that on January 12 his carriage was run down by a trolley car on George street, opposite the time kiln.

He said he had just turned in to pass another vehicle and before he could swing off the tracks the car was upon him. Neither he nor his coachman heard a bell, and the motorman asked him why he didn't get out of the way.

He said two other accidents of like character had happened about the same time, one at the same place and another in Highland Park. He said he hoped Council and the Police would take the matter up before someone was killed.

The letter was referred to the police committee.

THE WATER COMMISSION CONTINUED

Possible Co-operation With Milltown Leads to With- drawal of Motion That It Be Discharged.

The Advisory Water Commission was not discharged last night, though it had made its final report to Council. Alfred S. March, secretary of the commission, made his final report and enclosed a certified check for \$149.91, the balance left over and thanked Council for its support.

Alderman Nicholas moved that the committee be discharged with the thanks of Council, but Alderman-at-large Burt suggested that as the matter of co-operation with Milltown in the water supply question might come up soon, it might be as well to refer the communication and check to the Finance Committee for the present. This was done.

Firemen Ask New Badges.

Ephraim White, Chevalier McAvoy and John Lynch, a committee named for the purpose by the Board of Engineers of the fire department, petitioned that new badges be provided for the firemen. They said that retiring firemen had frequently failed to turn over their badges, with the result that many were being

WIFE TELLS STORY OF CRUELTY

Robert Smalley, of South River, Breaks into the Vil- lage Smithy and Has His Missing Spouse and Chas. Donnelly Arrested.

South River is all agog to-day over the happenings last night in a small blacksmith shop on Reed street, which resulted in the arrest of Mrs. Robert Smalley, of South River, and Charles J. Donnelly, of James street, this city.

Mrs. Smalley disappeared mysteriously from her home a week ago, and Mr. Smalley, who is engaged in a plumbing business and is one of the foremost business men of the place, has since conducted a quiet search for his wife. Last night he watched closely the small blacksmith shop on Reed street, and saw his wife enter with Donnelly.

Mrs. Smalley called Officer O'Brien, and with some other men, eager for excitement, broke into the place. Mr. Donnelly confronted them with an iron bar, but did not use it. In reply to questions he at first denied that Mrs. Smalley was with him, and the officer decided on a thorough search. Mrs. Smalley was found.

Donnelly and Mrs. Smalley were taken before Mayor Joseph Mark, who held each under \$500 bail. Mrs. Smalley secured bail this morning, her father furnishing bonds. Donnelly was still confined in the South River lockup at noon to-day, but expects to get bail this afternoon.

Mrs. Smalley, when arraigned, said she was afraid of her husband, and had found a good friend in Mr. Donnelly.

Donnelly first came to South River several months ago, and rented the blacksmith shop on Reed street. It is said that Donnelly's fascinating ways and manners won Mrs. Smalley. Mrs. Smalley is very attractive, about 30 years of age, and is considered one of the prettiest women in South River. She has been known as the "living doll" because of her delicate beauty. She was formerly Miss Lizzie Diehl, of Sayreville.

Smalley last Friday published a notice that his wife having left him, he would not be responsible for her debts.

Mrs. Smalley came to New Brunswick this afternoon to see Prosecutor Boorum, to whom she told a story of extreme cruelty and exhibited her head, showing deep cuts inflicted by her husband a week ago yesterday.

She says that he came home from New York intoxicated, and after tearing up her clothes, struck her in the head with a brick, causing her to fall down a flight of stairs, where she lay unconscious for some time. After reviving she telephoned for Dr. Selover, who found the woman again unconscious in pools of blood, and almost at the point of death from the loss of blood. The doctor said that ten minutes later the woman would have been dead.

Mrs. Smalley said her husband beat her often, and several times she left him, but each time he coaxed her back, promising to be better to her.

The doctor said that ten minutes later the woman would have been dead.

Mrs. Smalley said her husband beat her often, and several times she left him, but each time he coaxed her back, promising to be better to her.

V.M.C.A. TO BE REVIVED?

The closing of Graham's Hall has revived talk of resuming Y. M. C. A. work in this city and it is under- stood that a meeting to discuss the matter has been called for Thurs- day, of the present week. Consider- able secrecy surrounds the plans for the gathering and those who are understood to be at the front in ar- ranging the meeting, exhibit marked reluctance to talk about it.

It can be stated, however, that the meeting has been planned without the cognizance of the Board of Directors of the Y. M. C. A., several of whom expressed the densest ignorance concerning the matter to-day. These included the secretary, George W. Van Vechten, and other prominent members.

Rev. Paul Hayne, who was said in some quarters to be possessed of full information regarding the matter, declined to discuss the subject at all, simply declaring, "I have nothing to say." Asked if the local Pastor's Union was back of the plan, Rev. Mr. Hayne made the same reply.

It is known, however, that Rev. John A. Ingham, secretary of the Pastor's Union, who is visiting friends at Ardsley-on-the-Hudson, will return on Thursday for this meeting, shortening his visit on purpose to be here. Several pastors interviewed to-day were in densest ignorance of the plans, while laymen from other churches were found who had been invited to participate in the movement.

In view of the wide-spread interest in the matter of taking up Y. M. C. A. work anew in this city, it is considered strange that the public has not been taken more completely into the confidence of those engineering the movement. Possibly a general call to the public to attend Thursday's meeting may yet be issued. Let us hear from our readers about it.

JELIN CASE TESTIMONY IS STARTED

Taking of testimony in the case of Abraham Jelin vs. the City of New Brunswick and Cornelius McCrellis was started this afternoon before Supreme Court Commissioner J. Keamy Rice, the action being to re- view the proceedings by which Mc- Crellis was elected Street Commis- sioner on January 8 last.

The principal witnesses in the action are the city records, from which John A. Coan, representing Mr. Jelin, seeks to show that he was elected on January 1, 1910, for the term prescribed by law. Jelin was elected to succeed John T. Kemp, who had then served two of three years for which he was elected. The minutes of January 1, 1910, state that Robert Adrain was elected City Attorney "for the term prescribed by law," then say that "the same procedure" was taken with Mr. Jelin.

The ordinance of 1907 fixing the term of the Street Commissioner at three years, is another of the documentary witnesses.

Alan H. Strong appeared for McCrellis and City Attorney Charles E. Tindell for the city. Mr. Jelin and City Clerk Elmer J. McMurtry were the only witnesses called.

Mr. McMurtry produced the minute book of 1910, page 431 telling of the election of Jelin as already stated.

CHARTER COMMITTEE SELECTED

Alderman Burt Also Com- pletes Board of Estimate —Michael Egan Elected Truant Officer by Council.

Alderman-at-large Edward Burt at last night's meeting of Council appointed Aldermen William Goodwin, Charles A. Oliver and Joseph J. Feaster to act with the committees named by the Board of Trade and the Mayor to consider the matter of charter revision.

A resolution authorizing the appointment was adopted at the previous meeting, but the selection was not made then. Those interested in the matter are anxious to get the conference under way at once so that a new charter can be submitted to the Legislature at the present session.

Board of Estimate.

Council was notified by President Henry G. Parker of the Board of Education that Dr. A. L. Smith and William H. Benedict had been named as members of the Board of Estimate. Alderman Burt then named Aldermen William Goodwin and W. Carey Nicholas to act as Council members. These four with Mayor Morrison will constitute the Board of Estimate for this year.

Egan Truant Officer.

Michael Egan was elected truant officer in accordance with the ordinance adopted last year making such an officer a member of the regular police force. Alderman Oliver made the nomination and Alderman Kinney seconded it, and Egan was chosen by unanimous vote.

PRICE AND QUALITY

Are two of the things to be considered in meats, for if you fail to get the quality you simply throw away money, no matter how small the amount may be. Enter into the enjoyment of fresh, tender meat of quality. Let us supply your table with meats, groceries or vegetables. N. B. Meat Market, 252 George street, Phone 366-J, Morris Schaubraun, Prop. 122-4*

BIG FIRE SALE

Of men's, ladies' and children's clothing, at the corner of Hiram and Burnett streets. We are offering at 25c on the dollar all of our stock that was saved from the fire which recently destroyed our store. M. Greenburg. 112-2w*

HAVE BEEN OFFICERS FOR 16 YEARS

The Middlesex County School Boards Association, which held its annual meeting and banquet at Woodbridge on Saturday, has always had the same set of officers at its head since the organization of the society sixteen years ago.

On Saturday the following were re-elected: President, H. Brewster Willis, county superintendent; treasurer, Daniel Webster Clayton, surrogate; secretary, William Carman, president of the County Board of Taxation.

These officers have handled the affairs of the association in such an excellent and capable manner that there never has been a thought of changing.

NOTICE

The card party and dance of the Ladies' Auxiliary of the Albany Street Temple, which was to be held in Graham's Hall on Tuesday, January 23, will be held in the Masonic Temple, January 23, at 8 p. m. Music by Haywood's orchestra. 122-2*

CASH REGISTERS—The most approved and up-to-date cash registers in the world to-day are the National Cash Registers, ranging in price from \$15.00 up, with small monthly payments.
