WHOLESALE FLOUR THEFT REVEALED

Maggo & Son, New York Dealers Learned That 259 Sacks Had Been Shipped to This City and Police Find Stolen Goods in Remsen Ave. Bakery—G. Faraci, Arrested, Says He is Innocent.

WHISTLES WILL BLOW AS AIRMEN APPROACH CITY

Johnson & Johnson to Give Signal When Flyers Pass Over Metuchen—The Start to Be Made at Noon—Flyers Here Before One O'clock.

Many New Brunswickers and suburbanites are preparing to witness the aeroplane flight to-morrow from New York to Philadelphia in which Hugh A. Robinson, Lincoln Beachey and C. K. Hamilton will compete. The three will fly over this city, and it is expected that there will be many people out to see the daring airman.

New Brunswickers still remember the last flight made over this city, when Hamilton steered his machine from New York to Philadelphia on June 10, 1910. He passed over this city as early as 8:20 a. m. His return trip was expected about 2 o'clock in the afternoon, but a mishap delayed the trip considerably.

The three aviators were in Philadelphia yesterday, where they had lunch with Mayor Reburn and newspaper men in Gimbel Bros.' store. This firm is offering \$5,000 to the winner of the race. To-day they will meet in New York with representatives of the press in the Gimbel store and probably Mayor Gaynor, who is to act as official starter.

Each contestant declares that his purpose is to establish a new speed record. Hamilton made the flight, 86 miles, in 110 minutes last year, and the aviators expect to clip off some of that time on Saturday.

New model Curtiss biplanes of higher power and swifter than the one Hamilton used on his last trip will be piloted. Hamilton says his altitude in flying over the New Jersey cities will be guided by the atmospheric conditions.

In speaking of the trip in New York yesterday Robinson said: "In the flight from New York to Philadelphia I don't anticipate any difficulty. I know what can be done with a Curtiss biplane. I have the greatest confidence in my new motor, and I expect to fly from Governor's Island to Fairmount Park without stopping. The speed made will depend somewhat on air conditions, but it is possible that the cross-country race will be won in fast time. Of course we mean to break the record if we can."

At the request of the Home News to-day, Charles A. McCormick, treasurer of the Johnson & Johnson factory, agreed to have the whistles of that plant blow when this paper gave the word that the airman had reached Metuchen. This will give everybody a chance to get ready and hustle to points of vantage.

General Grant issued an order yesterday permitting Charles K. Hamilton, Hugh Robinson and Lincoln Beachey, the contestants in the aeroplane race from New York to Philadelphia to make their start from Governor's Island. They spent yesterday in Philadelphia looking over the landing spot. The race will be flown under the sanction of the Aero Club of Pennsylvania. It is intended to make the start from Governor's Island at noon to-morrow.

SPEEDING AUTO CRASHES INTO PEDDLER'S WAGON

Serious Accident Occurs at End of South Amboy County Bridge—Several Injured, One Seriously—Three Children in Demolished Wagon.

SOUTH AMBOY, Aug. 4.—There was a bad auto accident here about 5:30 last night, at the end of the South Amboy county bridge, which may result in the death of one child. Following the accident wild reports spread throughout the county, some to the effect that two men had been killed.

A National Roadster, owned by Henry Stiegel, of Newark, who is summering at Spring Lake, ran into a wagon belonging to Samuel Hockthaus, of Bergen Hill. In the wagon at the time besides himself were his three children. One, Jacob, was the most seriously injured when the wagon was overturned and the occupants thrown to the roadway. All were rushed to the Perth Amboy City Hospital.

At the time of the accident it is said that the auto was going at a rate of 50 miles an hour. The car was badly damaged and was taken to Perth Amboy for repairs. There were two other men in the car, but they were not injured.

Both the auto and wagon were going in the same direction. As Stiegel steered the car to the left to pass the wagon, Hockthaus drove to the left also, and the collision was unavoidable. The children were badly bruised, but none seriously hurt except Jacob, who may die.

RARITAN RIVER RAILROAD IS PROSPEROUS

Last Year Best Ever, Says Supt. Frank Hoffman, and This Year Will Go Ahead of That—Road is But 21 Years Old.

Frank Hoffman, superintendent of the Raritan River Railroad, was in town to-day and told a Home News reporter that his line was enjoying the most prosperous period of its existence.

"Last year was the best ever for the road," he said, "and the indications are that this one will be even better."

The Raritan River Railroad is just a little over a year old, having been formally opened on January 6, 1890. Its beginnings were unpretentious, and as a passenger line it has never started the competition of the trolley from New Brunswick to South Amboy, but its freight business has grown enormously. The main line of the railroad to South Amboy is but a tiny fraction of its trackage, as switches miles in length branch off in every direction to the clay works along the south shore of the Raritan. It would take a full day to go over the entire system of this road.

To the Raritan River line is due principally the remarkable growth of Milltown, South River and Sayreville, for furnishing a competitor to the Pennsylvania in freight business. Superintendent Hoffman was formerly county detective of Middlesex, under Prosecutors Berdine and Boorsem, giving up the place to take charge of the railroad.

WIFE SAYS HE KICKED HER

Barney Yobolskie was brought to jail to-day on a charge of assault made by his wife, who declares that on July 2 last he kicked her.

Why the delay was made in bringing the charge does not appear. Justice Charles J. Engelhart sent the man up to await the Grand Jury's action.

HEALTH BOARD MIGHT LOOK INTO THIS

Parafine Cups Discarded By Traveling Public Are Utilized By Those of Tender Years—Days of Sidewalk Pumps Recalled.

Persons waiting at the Pennsylvania Railroad depot for the return of the Asbury Park excursion last evening were greatly edified by one phase of the working-out of the new law prohibiting the use of the public drinking cup.

A vending machine which produces a parafine drinking cup when a coin is dropped in the slot, stands near the ice cooler, while just to one side there is a basket receptacle into which the traveling public is accustomed to drop these parafine cups after slaking their thirst.

Last evening there was gathered about this waste basket a company of ten to fifteen children, who spent their time in "digging" the discarded cups from the basket, filling them with water at the fountain and drinking their contents with evident relish. The exhibition formed a striking commentary on the effectiveness of a law designed to prevent the spread of germ diseases.

A prominent George street business man, discussing the incident this morning, voiced the opinion that "much learning has made us mad," and sighed for the "good old days" when he commens with other business as well as laboring men of the city, used to stop at the old sidewalk pump, notably one that stood in front of H. R. Zimmerman's store on Church street, put one hand under the spout, work the handle vigorously and get a draught of delicious spring water, with no thought of disease germs or other latter day "bugaboos," as he termed certain attempts to safeguard the public health.

Antonio Maggo & Son, wholesale flour dealers, with offices at 246 Laquette street, New York, on July 20 sent 259 sacks of flour, which had been stolen. At the same time an employee disappeared.

On July 22 the company learned that the flour had been shipped to New Brunswick on the Pennsylvania and began an investigation. Last night Detective John Caserta, of the New York police force, with Detective Sergeant George Dunn, of the department, located the flour in a bakery shop of G. Faraci, of 169 Remsen avenue. The flour sacks were positively identified as the ones that were stolen from the wholesale store in New York. The goods were seized by the detectives after a search of the Italian district.

Faraci was arrested last night on a charge of receiving stolen goods, and was kept in the lockup overnight. He was arraigned this morning and gave bail.

Faraci declares that he was innocent of the fact that he was buying stolen goods. He says that the last part of July a man came to him and asked if he wanted to buy some flour at reduced rates. This man offered to sell, he says, about 1,000 bushels of flour for \$725. As this was a large sum he accepted the proposition. Faraci has been in business for over two years.

Maggo & Son place the value of the stolen goods at \$1,000. The selling employee has not been located.

METHODISTS CLEAR \$125 ON EXCURSION

Nearly a Thousand Excursionists Enjoy Ideal Outing—Day Was Without Special Incident Other Than That Afforded By Prospect Plains Party.

The all-rail excursion conducted by the First M. E. Sunday school to Asbury Park yesterday proved a complete success, socially and financially. About \$125 was cleared by the outing.

According to official count, exactly nine hundred and twenty-nine persons availed themselves of the opportunity to spend a day at the seashore.

Nine cars left New Brunswick in the morning and one was added at Monmouth Junction, but so crowded was the train that the railway management provided another car for the return trip.

The only special incident of the day was the fact that four persons bound for Prospect Plains boarded the train at Asbury Park under the mistaken impression that they were homeward bound. They were permitted to get out at Jamesburg.

PUSHING A WHEELBARROW TO NEW YORK

Fred A. Orr Has Walked Behind Vehicle From Charlotte, N. C.—Pleasant Trip Except for a Fall and a Bump Against Colored Man.

Mistah Fred A. Orr, of Charlotte, North Carolina, sub, dropped into town this morning at the business end of a wheelbarrow, which he is propelling to New York City, and acquired many friends with his charming Southern ways.

He left Charlotte on July 4 amid the crackling of firecrackers, some of which crackled in his honor, bearing a letter to Mayor Gaynor, of New York. He promised his Charlotte constituents to wheel that barrow to the New York City Hall by August 10.

Mr. Orr found the going pretty good for a while, the wheelbarrow being a light one, but latterly the work has been wearisome, because people have gotten into the way of the wheelbarrow, which adds considerably to the burden. At Trenton, however, a gentleman varied the procedure by cutting his initials in the vehicle, which helped some.

The Charlotte citizen says he will land in New York to-morrow, five days ahead of time.

"And I would have been hyah sooner," he observed, "but while crossing Virginia I fell and cut my leg. I had to have nine stitches taken in it. That put me back a whole day."

Mr. Orr said he was delighted with what he had seen in New Brunswick except for one unfortunate incident. A colored man bumped into him.

"And he got away befo' I could reach him," complained Mr. Orr. "Why, in my country he could hardly have lived after that. That niggah hadn't better bump me again."

Mr. Orr called on City Clerk McMurry and got a letter verifying his transit through this city.

MICHELIN TIRE CO. IS SUED

NEW YORK, Aug. 4.—Deputy Sheriff Lary received five attachments yesterday for \$157,725 against the Michelin Tire Company, of Milltown, which has an office at 1763 Broadway, in favor of Poel & Arnold on claims for damages for alleged breach of contract for failure to accept shipments of rubber and for balance claimed on deliveries made.

It is alleged that the company repudiated the contracts, which were made some time ago at prices from \$1.75 to \$1.95 a pound. Now the price is about \$1.15.

The attachments were granted on the ground that it is a New Jersey corporation and the sheriff served them on a bank and a trust company.

HIS POCKETS WERE TOO BULKY

This Made Night Watchman McGarry Suspicious, and Steve Deski Was Arrested—Admitted He Had Robbed Highland Park Store.

A Hungarian coming across the Albany street bridge at 3 o'clock this morning with bulky pockets attracted the attention of Night Watchman McGarry. In his pockets were bags of tobacco, packages of cigarettes, a clock, some candy and other articles. As the night watchman was unable to get any satisfaction from him, he called Officer Coleman and started an investigation, after taking the prisoner to police headquarters.

The officers found that a store had been robbed in Highland Park. A glass in the door was smashed and through this the visitor made his entrance.

At the police station the suspected man gave his name as Steve Deski, and later admitted the theft. He said he had been in this country but six months.

He was arraigned before Recorder Houghton, who held him under \$500 bail.

Will Plan for New School Term This Evening

Members of the Board of Education will meet in monthly business session this evening, when a number of matters incident to the reopening of the schools after the summer vacation will be considered.

The present indications are that both of the new grade schools will be ready for occupancy early in September and it is probable that some special exercises will be arranged to mark the opening.

It is possible that the Board will assign the teachers to the various schools at to-night's meeting.

SMALLPOX AT PORT READING

PORT READING, Aug. 4.—Over 100 Italians have been vaccinated within the last three days, in order to prevent smallpox from spreading from a foreigner who is quarantined at his home here suffering with the disease, according to the fears expressed by the physicians. The man was taken ill four days ago, and Dr. J. J. Reason, of Carteret, was summoned. He called in Dr. W. Hoagland of Woodbridge, the physician for the Philadelphia and Reading Railroad in this vicinity, and the two diagnosed the case as smallpox.

Two days before the discovery of the disease the Italian was working with a large force of men at the Philadelphia and Reading Railroad Company's coal terminus here. He was living in a house where many other Italians were also quartered. Immediately after the nature of his illness was learned, the place was vacated, except the sick man. Two men were placed nearby as a guard.

The Italians with whom he associated are under close watch for indications of the scourge, but nothing whatever of an alarming kind has appeared yet.

Where the man contracted smallpox is causing the physicians considerable speculation. So far as can be learned of his movements, he has not been any place where the disease existed, and there has not been any smallpox in this section of the country in ten years.

New Jersey Gets 2 More Representatives

WASHINGTON, Aug. 4.—The State yesterday, without division, passed the House bill increasing its membership from 391 to 433, and added two amendments, offered by Mr. Burton. Other proposed amendments were beaten.

One amendment gives the people of the States having the referendum right to make the reapportionment of seats in the Legislature. The bill goes to the Senate as at present. The vote was 239 yeas, 190 nays, 13 absent. The second amendment provides that candidates for Representatives-at-large shall be nominated in the same manner as State officers. It is intended to prevent the elimination of negro voters in the South.

The bill now goes back to the House. The amendments in the amendments the bill will go to conference.

The increased membership represents the addition of 15,000,000 population shown by last year's census. If Arizona and New Mexico are admitted to Statehood, the membership will be 435.

The bill will affect the Representatives-at-large elected for the Congress beginning March, 1912, so that it will also affect the electoral vote for the next president. No State losses in representation, and 25 gain, as follows:

New York, 6; Pennsylvania, 4; California and Oklahoma, 3 each; Illinois, Massachusetts, New Jersey, Texas and Washington, 2 each; and Arizona, Colorado, Florida, Georgia, Idaho, Louisiana, Michigan, Minnesota, Montana, North Dakota, Ohio, Oregon, Rhode Island, South Dakota, Utah and West Virginia, 1 each.

GERMAN DAY, Monday, August 7, 1911, at Washington Park, South River, N. J.

PARADE STARTS AT 2 P. M. FROM GEO. ALLGAIER'S AMERICAN HOUSE, SOUTH RIVER, N. J. PROMINENT SPEAKERS, CONCERT, ATHLETICS AND OTHER SPORTS, DANCING, ETC.

RUNAWAY BOY FOUND HERE.

Alex. Shaltan, a boy 14 years of age who ran away from his New York home three days ago, was picked up in this city last night by Officer Robinson. His parents have been notified and in the meantime the boy will be taken care of by local friends. The boy left home to find work and wandered to this city.

NOTICE TO PROPERTY OWNERS AND BUILDERS

Your painting and paperhanging work can be done with the best material for reasonable prices. Drop us a line or telephone 246-W and we will call. The prices and good quality will surprise you. We also carry full line of paper and paint supplies, also varnishes. M. Levine & Co., 24 Hiram street. Telephone 246-W.

NOTICE TO PROPERTY OWNERS.

I have several buyers for small properties in the Fourth, Fifth and Sixth Wards. If you have a small house from 6 to 8 rooms, and you wish to make a quick sale at a fair price, call and give me particulars or phone 696. No fancy prices listed. John Watson, Rooms 202-203 National Bank building. Jy27-tf*

Reng's Markets, 252 George street and 59 Hiram street. Phones. aug4-tf*

PRESBYTERIANS' GOOD SHOWING

The large Presbyterian body, that of the North, has just issued its report for last year. In membership it has regained all it lost following the Cumberland Presbyterian merger, and 14,000 besides. In 1907, when the Cumberland people came out, there was a jump in the membership figures of 183,000, followed the next year by a setback of 41,000. Some Cumberlandians, notably some in Tennessee, refused to stay united.

Now the membership has reached 1,354,452, or much higher than ever before. The net gain last year was 15,500. The whole number of churches is 10,951, the highest number ever reached. The Sunday school enrollment is now 1,205,136. In proportion to membership of the church this is the highest obtaining in any of the large religious bodies.

A few small bodies have many children in their Sunday schools as members in their churches but the larger bodies have often hardly more than half so many. The proportion of Presbyterians is 1,205,136 to 1-354,452.

Contributions by Presbyterians last year amounted to \$25,909,000, or next to Methodists, the largest of any religious body in America. This is \$19 and a trifle more per member, which is the highest average, save one, Episcopalians averaging almost exactly \$20 per member.

BIG CAR OFF TRACKS AT MUSICAL STRING FACTORY

One of the big double truck trolley cars used on the Milltown line of the Public Service jumped the track at the Musical String factory early this morning and ran about 100 feet along the roadway before coming to a standstill.

Master Engineer Dupras succeeded in getting the car back on the tracks after a comparatively short delay, and traffic was resumed. Motorman Kolb was running the car when the mishap occurred.

HORSE FOUND.

Black mare found. Owner can have same by paying cost and proving ownership. M. E. S. Lorenson, Bonhantown, Marlboro, R. F. D. No. 1, or P. O. Box 315, Metuchen. Jy31-5t

THE NEW VICTROLAS.

Music such as you have never heard before—right in your own home. JUST THINK OF IT—to hear in your own home the soul-stirring songs and concerted numbers that have immortalized the names of Verdi, Gounod, Donizetti, Mozart, and all the other great composers. To prove what a wonderful instrument the VICTROLA is, R. MONTEVALLO, JR., will put one in your home on free trial. Jy15-tf*
