TROOPS END RIOT

Soldiers Now Patrolling Columbus Car Lines.

HARMON IS WORKING FOR PEACE

Columbus, O., Aug. 1.—Rioting has been checked by the arrival of two new regiments of the Ohio national guard and the assumption of command by Major General Charles P. Dick.

Wholesale arrests of rioters by the soldiers had a wholesome moral effect. Disorder since then has consisted of the stoning of cars and the mobbing of a motorman and conductor by strike sympathizers on Pennsylvania avenue. Both were badly beaten. A number of arrests were made.

All the car lines of the city and the principal streets were patrolled the entire day by soldiers. Mounted troops held in readiness at the statehouse camp were not called out.

A monster demonstration was held yesterday afternoon by the striking car men. It was attended by no disorder, however. The strikers paraded the streets downtown amid the cheers of thousands of spectators. Circling the capitol square, where many of the troops are encamped, they entered the statehouse ground, with permission of the state and local authorities. The crowd of nearly 10,000 people that assembled was addressed by strike leaders and union labor officials.

Governor Harmon upon his own initiative has begun negotiations with both representatives of the company and the union men looking to a peaceful settlement. It is said that the company, which has stubbornly resisted all arbitration and overtures, is willing to make concessions.

RIOT GUNS AWE A MOB.

Pennsylvania Constabulary Puts Striking Miners to Flight. Greensburg, Pa., Aug. 1.—After much riding and shooting forty members of the Pennsylvania state constabulary have managed to get a semblance of order at Export, Pa., where for forty-eight hours there has been rioting, arson and bloodshed.

Troop B of the state constabulary came riding into Export from Paxson-tawney and the moment the troopers saw the masses of miners and the burning houses at Export they began to shoot. While their shots went into the air they had the effect of sending the striking miners helter skelter.

Later the troopers went out in automobiles with riot guns. More than 100 persons were roughly handled. After that when a crowd of strike sympathizers would hear the toot of an automobile horn they would fly.

CONTINUES TO WORK WONDER IN NEW BRUNSWICK. But This Week Will be the Last of Demonstration.

It is absurd to doubt the great merit of Root Juice as proofs of its wonderful health-promoting virtues can be found in scores of homes here in New Brunswick and vicinity. It has undoubtedly proved to be the world's greatest healing tonic to the stomach, bowels, bladder, liver and kidneys. No weak, sickly man or woman can afford to wait another day without getting some of the great medicine, as a few doses usually create marked improvement, and from the experience of many local people the soothing, healing and strengthening action of the remedy is so rapid that it is absolutely wonderful. Dozens of people have so reported of Hoagland's drug store within the last few days. We are informed that the demonstrations will positively close at this point next Saturday night and until the close of the demonstrations the Juice will be sold for one dollar a bottle, or three bottles for two dollars and a half.

It is easy for the most delicate young stomach to digest, because it forms a cur not tough and greasy, soft, tender and flaky. It is the nearest perfect substitute for mother's milk of all cows milk.
