Caravan of Trucks and Cars Takes South River to Beach

Thorough Outing to Belvedere Beach Leaves Community Deserted; Line of Cars Mile and Half Long Transports Children

SOUTH RIVER, Aug. 12.—"We're ready," was Chairman Fitzpatrick's slogan for starting the caravan of trucks and cars to Belvedere Beach, where four thousand children and their friends are enjoying the pastimes of the resort.

The auto caravan of trucks and cars, carrying 3,500 children from Jackson street, where the party was organized, to the beach, was a sight to behold.

Thousands of people lined the shore and wished the children a good time at the bay resort. The cars responded with the tooting horns and the blowing of whistles, furnished by Victor Roberts of the Sayreville Sales Company.

The children made good use of the noise making instruments. The entire route, from South River to the beach, was festooned with bands of joyous calls and the blowing of horns and whistles.

It is the first community outing held in South River, and is in charge of the arrangements committee, headed by the Rev. J. W. Van Dyke, pastor of the Methodist church.

Special officers were placed at railroad crossings along the route. A special officer was placed at the railroad crossing at Old Bridge.

Milltown People Want Park, Municipal Swimming Pool

Hot Weather Brings Many Suggestions for Relief; Suggest Park on Plot Across From Car Barns, Near Lawrence Brook

MILLTOWN, Aug. 12.—These hot days make borough folk wish they had a swimming pool and public park at their disposal. More comment has been heard the past three days about a public park and a swimming pool in the borough than has been heard for months.

Milltown has two spots most ideal for such conveniences. Milltown, according to some people, ought to make immediate arrangements to make summer life comfortable for borough folk and visitors. There are two spots that could be utilized to good advantage for public parks, and in one place a swimming pool could be erected.

One man, in commenting on the idea last night, said he thought that the school playground should be fixed up and believed that it could be done with little expense. Right now the playground is in poor condition, so much so that it is not practical for a public park, although with a little attention it could be converted into a very nice place.

There are no benches on the ground, even though there are some trees that would afford shade. The grass is not cut, but all this could be remedied and the place made more appealing. The ground could easily be leveled off. The suggestion of a pool in the playground is not a new one, and with a little attention which it would undoubtedly get, it could be made a realization by next year.

Other park space is the plot of ground bordering on the Lawrence Brook across from the old car barns. This is another apparently ideal spot, and it is understood that the Hartman River Railroad Company will carry all the dirt necessary to fill in the space if the officials of the town would say the word. The delay is a waste of valuable time and if the railroad company is so willing to fill the place in, many people feel the borough officials surely ought to take them up on it. This has been hanging fire for months.

Other News The Milltown merchants will hold their annual outing tonight, when they will go to Seidler's Beach and partake of a fish supper and take a dip into the water.

Seidler's Beach, Morgan and Laurence Harbor certainly were done with borough folk last night, eager for a dip into the cooling waters. Even the attractive pool at New Brunswick lured many Milltowners.
