Common Council Members Pay Visit To Town Lock-Up

JAMESBURG, Aug. 8.—Common Council met in Borough Hall on Monday evening, and much business was accomplished. The following members were present: Councilmen Hausser, Thorne, Rogers, Tomson, Heckman, Clerk William H. Brooks, and Mayor Elmer Patten presided at the meeting for a portion, when the president, Clarence Thorne, took charge when the Mayor was called home. The following bills were ordered paid: David H. Smith, repairs to electric light system, \$1; road account, \$35.85; Arnold Baremore, repairs to fire alarm system, \$20; John Dingeldy, repairs to scraper, etc., \$11; A. B. Hausser & Co., \$6.73; Marshal Augustus Fillhower, \$10.40; Jamesburg Electric Company, July service, \$159.65; Joseph Bohlen, cesspool, \$21.70; William H. Brooks, insurance, \$52.50. Mayor Patten opened the "pig question," owing to complaints that the official has received from citizens who object to piggeries near their homes. His idea was the drafting of an ordinance to forbid all citizens having pigs on their premises. After the question had been argued very thoroughly, the question was dropped for the time being. The report of Recorder Howard Asson was received and the cash turned over to the borough for fines collected. Twelve cases were heard by that official during the past month and the fines amounted to \$21, with fees of \$9.

John Dingeldy was before the Council in an effort to get the borough to construct a roadway on his property that autoists have taken possession of. He has repeatedly erected barriers, but without avail, as they run into fences and other obstructions. It has become dangerous for the children of neighbors to play thereabouts, in fear of being run down. It was referred to the street committee. Recommendation was made to the Council to appoint Marshal Fillhower to the office of constable, to fill the unexpired term of George Bender. Not being familiar with the law, the matter was referred to the police committee, to consult with the borough solicitor and report at the September meeting. Preceding and following the meeting a visit was paid to the borough lockup, that has been given so much distasteful notoriety of late owing to its unsanitary condition. Marshal Fillhower had burned the bedding, including the mattress and blankets, that were in a very dirty condition. The place had been fumigated, water turned on for several hours, and all the iron work newly painted. The spic and span condition of the lockup was highly praised. In place of feather beds that have been provided for tramps and drunks confined in the jail, these sleep-producers have been replaced by nice, soft pine boards, that will be sent to the bath every morning after the prisoners are turned out. Mr. and Mrs. Clarence Waddy, of Hornerstown, spent the week-end at the home of the former's brother, John Waddy. While here they visited at the home of Andrew Dill, at South Amboy, taking Mr. and Mrs. Waddy along. Mr. and Mrs. Thos. Mapp, of Trenton, were also Sunday guests of Mr. and Mrs. John Waddy. Mr. Mapps will be recalled as the catcher of the senior baseball team for several years.

The new steel pole that the Pennsylvania Railroad Company has purchased for use in the park at Upper Jamesburg has been placed in position by the engineers of the railroad company. In all the pole is 80 feet high, and will be an ornament to that section of the railroad property. The pole was placed in position on Monday. An extensive program has been arranged for the dedication of the shaft and the unfurling of the flag that will fly from same at a date to be announced within a few days. Supervisor Daulton is in charge of the arrangements. Mrs. Mary Buckelew spent Tuesday in New York City on business. William C. Buckelew, of Miami, Fla., is spending a few days at "Inverness," the Buckelew home-stead. Announcement has been made of the birth to Mr. and Mrs. John Applegate, of Bordentown, of a nine-pound son. The mother is a daughter of Mrs. Amanda Applegate, long a resident of this place. Miss Helen Lange, operated on at McKinley Hospital, Trenton, for appendicitis, has recovered sufficiently to be brought home. Miss Sarah Emmons, daughter of Mr. and Mrs. Wesley Emmons, is a patient at McKinley Hospital, Trenton, where she has just gone through an operation. The young lady passed through the operation successfully and is mending rapidly. Mr. John Ballinger and children, Arthur and Vernon, of Bayonne, are spending a two weeks' vacation with the former's mother, Mrs. Cornelia Jennings. Mr. Ballinger spent the week-end here. James Martin, of Philadelphia, is spending his vacation with his parents, Mr. and Mrs. George Martin. The use of the automobile among the employees at the Home for Boys has become so common the Home management has caused a garage to be erected for the exclusive use of the officers who own cars and store them at the Home.

Where Books Were Pawned. In primitive days books had a recognized and settled value. We know how they were exchanged for a horse or half a dozen sheep, but few people know the extent to which books were pawned in the middle ages. Oxford at one time had twenty giant chests full of these valuable pledges, and the process when stock was taken had to be conducted with care. The book fairs served to alter things, and presently as Smithfield market grew it set up a subservient industry on its outskirts, where the butchers sold skins and the parchment dealers bought. And this bookish street under the shadow of St. Paul's bore the pious name of Paternoster row.—Pall Mall Gazette.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat if You Feel Backachy or Have Bladder Trouble. Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush out the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink, which millions of men and women take now and then, thus avoiding serious kidney and bladder disease.

A number of beautiful floral pieces were sent by friends and relatives as expressions of their love and sympathy. Basketball to Be a Summer Game at South River This Month

SOUTH RIVER, Aug. 8.—Basketball seems to be the most popular sport among the youngsters in South River. The game is usually played in the winter, but regardless of hot weather basketball will be a summer sport in the borough during the month of August. An outdoor basketball court has been marked out on the playground and is ready to be used. "Johnny" Fitzpatrick, the High School basketball star will have charge of the work. He will round out two basketball teams composed of boys not over fifteen years of age. The latter part of the month a few basketball contests will be staged on the playground and a prize will be awarded to the winning team. All boys interested in basketball see John Fitzpatrick. Besides basketball there will be various games for the youngsters, something that will interest the children and there will also be folk dancing which will be conducted by Miss Hanson, who is the Playground Instructor. Miss Hanson has had experience in playground work at that place.

STEADY GROWTH REVEALS THE "PUSH" BEHIND A BANK

The South River Trust Company has planned its work and worked its plan. It has not sprung up mushroom-like overnight. Some businesses stake all on a single year—with no thought for the next. The fixed policy of having a plan of work has made this bank stable and steady. It takes deep thought of the future. Not building only for today, but for all time, is the aim of the South River Trust Company. Apply its policies to an account here—then watch that account's steady growth.
