Council Puts Ban on Intoxicants Being Sold At Picnic Groves Here

MILLTOWN March 13.—The Borough Council convened in regular session at the Borough Hall last night. Mayor William Kuhlthau, Jr., Clerk R. A. Harkins, Councilman Henry Kuhlthau, Albert Skewis, C. H. Crenning, William R. Evans, B. Miller and Charles Bauries answered the roll call.

The minutes of the last meeting and the adjourned meeting were read and approved.

Councilman Skewis made a motion to the effect that there shall be no intoxicating liquor sold at either of the picnic groves during the coming season, which was seconded by Councilman Kuhlthau and unanimously carried by the Council.

Councilman Skewis said that he had been spoken to by a number of parties regarding the trouble at the picnic groves, particularly last year, and all because of the selling of liquor. It has been a menace to the public for a long while, said the Councilman, as far as that particular part of the town is concerned, and if more people lived up that way there would be more of a general kick.

Councilman Evans said that people who did not live up that way can hardly appreciate what a disturbance is caused by the picnics held there at which liquor is sold, and he believes the owners also appreciate the situation and will co-operate with the officials of the borough in order to keep peace in the borough.

Minimum Light Rate of \$1 Per Month

The rules as submitted by the Light Committee, which provide that the minimum rate for electric current shall be \$1 per month or \$12 per year, were approved and 300 copies ordered printed for distribution among the light customers. By recent action of the Council all meters to be installed in the future and any meters to be installed in place of those that may be defective will be owned by the borough.

Filing of Affidavits.

Prior to the introduction of the resolutions by Councilman Kuhlthau there was filed with the Borough Clerk affidavits to the effect that the notice of intention for the installation of a water system had been published according to law, and also affidavits to the effect that no remonstrances had been filed with the Borough Clerk within sixty days protesting against the installation of either of the above.

In regard to the \$12,500 which the city of New Brunswick agreed to pay to the borough of Milltown toward the construction of sewer and water systems, Attorney Weigel said that according to law they have no right to pay this amount to Milltown, but that on last Wednesday night a bill was introduced into the Legislature making the necessary provisions for this action. The Milltown Commission had provided in its aggregate that this amount shall be paid when the work starts, but the New Brunswick Commission had made no mention as to when the amount would be paid. He said that a meeting of the two commissions would soon clear up the matter and that he would keep the public advised.

The chairman of the Light Committee, Charles Bauries reported that all the transformers have now been changed to a 110-volt circuit and that the electric light line, which was somewhat damaged by the recent storm, has been put in thorough working order by Electrician Roth.

The chairman of the Street Committee reported progress as usual. The snow is gradually melting away, says he.

The question of advertising for a special election to decide for or against the construction of a sewer and water system was not definitely decided at the Council meeting last night, as originally intended, for the reason that the Council had not passed resolutions declaring the amount necessary to be raised by general taxation for this purpose.

Councilman Kuhlthau presented resolutions which confirm the recommendations of the Water Commission and declare that \$45,000 is necessary to be raised for water and \$57,500 for sewers and also declaring that the Council will proceed to advertise for sewer and water systems.

Following this action it will be necessary for ten days or more to elapse before the Council can advertise for a special election, which step will be taken at an adjourned meeting, which is to be held on March 26, and then the election will not be held until thirty days from the date of the first publication of notice for such election.

License Your Dog.

A resolution as introduced by Councilman Skewis regarding the licensing of dogs was unanimously adopted, the same to be effective March 26. The resolution provides that every dog shall have a collar and a tag with the name of the owner and registry number, and if any stray canines are captured by the officers

of dog catchers they will be destroyed within twenty-four hours providing the owner does not appear before the officers and pay a fee of \$2.50 and besides \$1 for the register of such stray canine. The officers authorized to act in the capacity of dog catchers are George Lins, Joseph Rapprecht and Charles Foerster.

Bills Paid.

The following bills were ordered paid: C. D. Reese, \$3.90; C. V. L. CAPT. NOLAN'S WIFE TALKS OUT

To the Editor The Home News: On Monday of this week there appeared in your paper an article regarding to Capt. Nolan, saying he had lost his position with the Pennsylvania and Lehigh Valley Railroad Companies on account of his wife's bounding him. Now, I wish to state that I had nothing whatever to do with his losing his positions. When he neglected his duty that had nothing to do with me.

Also, on January 8, when he was arrested in South Amboy and reported back to work and was no longer wanted, he stated, through his counsel that he has been away from his family since last August on account of troubles.

Now, his troubles were that he beat me on the street on the 9th of last August, for which he was arrested and found guilty and put under \$200 bonds to appear before the Grand Jury, from which I never heard any more about it.

So if he would have allowed his case to go to trial my witnesses would have proved which was entitled to a divorce. Please publish and oblige, Yours truly,

MRS. MARY NOLAN.
