JAMESBURG MECHANICS TO HAVE BIG TIME Will Celebrate 20th Anniversary on Sept. 30th, By Being Hosts to Large Assemblage—History of This Entertaining Lodge.

JAMESBURG, May 12.—The largest turnout ever made by the Junior Mechanics in this section will be the result of the efforts by Mechanics Home Council No. 71, of this place on September 27th of this year, for at that meeting the Juniors will make merry. It will be recalled forcibly to all that that hustling order of Patriotic Young Americans will be before the local public just twenty years on that date.

It was on September 20th, 1890, that an enthusiastic gathering of young men assembled for the purpose of being admitted to this patriotic order. Isaac Everitt, now a resident of Trenton, was the leading spirit in the movement and was made its first Councilor. John H. Baremore, still a resident was its first secretary.

The enthusiasm with which these young men went to work soon made itself manifest in the community and instantly forged to the front in the way of membership, they soon passing the century mark. This number they have maintained to this time, and even doing better. There are enrolled at the present time 154 members in good standing, a record to be proud of indeed.

Death Benefits Paid Out of Over \$10,000 In their twenty years this Council has paid out in death benefits alone over \$10,000 and this amount is greatly exceeded by the sick benefits paid to members owing to illness and private donations to worthy charities that were voluntarily donated.

Every matter pertaining to the detriment of our school system has been vigorously opposed by financial aid and petition.

The present worth of Mechanics Home Council is in excess of \$10,000 a grand showing indeed. Twenty members have been called by death, an average of one per year.

A Handsome Monument.

In May 1904, they caused to have erected in Fernwood cemetery, Jamesburg, a handsome monument, suitably inscribed to the memory of departed brothers and on the same site purchased a commodious plot where any member can find a last resting place, who has not made provision for same.

Mechanics Home Council meet every Tuesday evening in Mechanics Hall, the beautifully equipped and commodious meeting place of the majority of the societies of the borough, over the post-office, an electric of same appearing elsewhere in this issue. This room was first used in October, 1909.

D. OF L. IS A HUSTLING ORDER

JAMESBURG, May 12.—Pride of Mechanics Home Council, No. 61, Daughters of Liberty, was officially launched into local existence on December 17, 1895, with but thirty members, and to-day can boast of 125 active members, a wonderful record for this latest addition to Jamesburg's long list of beneficial orders. FINANCERS.

In the nineteen years of its existence Pride of Mechanics Home Council has, by a careful expenditure of its funds, and wise investments, is now able to show a balance of over two thousand dollars.

This latter statement is considered a wonderful achievement when it is shown the large number of beneficial orders have been unable to weather the long stage of illness and death among the ranks.

In its nineteen years of existence Pride of Mechanics Home Council has paid out in cash over nineteen thousand dollars, the greater portion being for the immediate relief of members suffering from sickness. For the past six months they have paid out in cash \$800.

MEMBERSHIP.

Seven members have been called by death. The past year, while being the hardest for the treasury to weather, has also been the banner year in the addition to the membership roll. In all thirty-seven were added to the order; twenty-two of the above number being admitted at one meeting, that at the large class initiation on December 26th, 1899. They are now hustling for the initiation of another large class in the near future.

This hustling order has also been honored by the State body, in addition, on state board of officers the name of Mrs. James Hampton, of Jamesburg, who has been a member of that board for the past seven years, and at the present time is Deputy State Councilor for the Jamesburg lodge appears.

As genuine hustlers, his lodge easily leads this community, and the fact being attested annually by the crowds that attend their annual harvest home each year, the largest gathering hereabouts.

They meet in Mechanics Hall, the first and third Mondays in the month.

The present officers are: Councilor, George Dock; vice councilor, Mrs. David H. Reid; associate vice councilor, Mrs. Frank Emens; recording secretary, Mrs. James Hampton; associate recording secretary, Mrs. George Dock; financial secretary, Mrs. Fannie Trues; treasurer, J. M. Van Pet; inside guard, Miss Carrie Applegate; outside guard, Mrs. Louis Emmons; trustees, Mrs. William Jolly, Sr., George Dock, and Mrs. Benjamin E. Cole.

Isaac V. Slover, of Mechanicsville, has moved into the house he bought on Second street, that was occupied for forty years by Mrs. Hamilton.

Gundrum and Collins have secured the contract for laying the gas pipes from Milltown into South River. They are already on the ground ready for work. South River is to be supplied by the Public Service Corporation.

ENGINE KILLS MAN AS HE PAUSES FOR REST

SOUTH AMBOY, May 13.—Joseph Marsin, an Italian laborer, working on the concrete piers of the new bridge under the Pennsylvania Railroad tracks, foot of Main street, was killed Wednesday. The man was single and about 24 years old. He had recently come here from Hoboken. The man was finishing the top of the cement piers and raised up to rest his back. His head was so near the tracks above him that when he straightened up his head and body protruded through between the sleepers. At this time an engine in charge of Charles Compton came along and so crushed his body that he died within a few minutes. His body was taken to Hoboken by Undertaker John J. Scully.

CHILD MEETS DEATH UNDER AN ENGINE

SOUTH AMBOY, May 13.—Michael Buna, 5 years old, was killed by a traction engine in Cliffwood yesterday afternoon. The boy was playing on the tracks and was struck and crushed to death. The engine resembles a steam roller and is used to haul two large cars of brick from the yard to the railroad.

MILLTOWN. WILL COUNCIL BE SUED FOR BILL?

Contractor Kerwin Threatens to Consult Attorney Unless Borough Fathers Settle—Other Live Notes.

MILLTOWN, May 13.—The Borough Council held its regular monthly meeting at the Borough Hall last evening. Mayor Richter, Councilmen Wagner, Kuhlhau, Rappelyea, Miller, Bauries, and Borough Clerk Harkins were present.

The following bills were ordered paid: Public Service Corporation \$201.00; John Patterson, \$4.80; Mrs. August Rhonish, \$1.50; Public Service Corporation, \$232.

The Collector's report showed a balance on hand on May 12th, of \$3,409.14. A communication from the Public Service Corporation asking permission to lay gas mains from Van Liew avenue to Washington avenue and on Washington avenue in order to convey gas to another town was accepted and ordered filed.

The standing and special committees reported progress.

Spencer Perry, of Riva avenue, acting as a representative of the Milltown Coal and Lumber Company received permission to speak before the Council. He stated that Van Liew avenue was soon to be extended twelve hundred feet to the grounds of the company and that as there was to be some dirt excavated, he offered it to the Borough to fill up the places on the avenue which were not up to the grade. The matter was voted to be left in the hands of the street committee with power to act.

Milton Brindle and Gilbert Gill representing the local order of Red Men addressed the Council and asked for sufficient electricity to have moving picture entertainments in the hall. The matter was left in the hands of the Light Committee.

Charles Sevenhair, the Borough treasurer, asked the Council what it intended doing about oiling the streets. He was informed that the matter was already being considered by the street committee.

Mayor Richter then announced that the Council would go into executive session.

The matter that was probably brought up in this session was the "Kerwin job." Two months ago the Council received a letter from Mr. Kerwin the contractor for the curbing and laying of gutters on South Main street in response to a communication from the Council stating that his work was unsatisfactory. In his letter the contractor declared that the work was daily inspected by an inspector appointed by the Council and was also inspected by Ex-Mayor Perry and Engineer Snyder. He also stated that unless the percentage, which was being held by the Council was paid he would consult an attorney.

This is the problem that the Council had to face last evening. All persons not in the Borough Council including the Home News and Times correspondents were refused admittance.

Mrs. Annette Vanderventer has sold her home on South Main street to J. Dilks, of Main street. Mrs. Vanderventer contemplates moving to South River in the near future.

George J. Griewe, of Washington avenue, has rented the farm of L. Klinks. The new home on Riva avenue belonging to Joseph Rupperecht is progressing nicely. Adam Christ is the contractor. Monsieur Sagenson has purchased a handsome Roze car.

August Zetman, formerly of Washington avenue, has moved to Perth Amboy. Mrs. G. J. Griewe is spending a few weeks at Hempstead, Long Island.

The Milltown Coal and Lumber Company expects to break ground for the railroad siding next Monday.

Mrs. C. H. Vanderzuer, of Ford avenue, has returned home, after a pleasant two weeks' visit at Livingston Park. Rev. and Mrs. J. W. Morris attended the District Stewards Convention at Atlantic Highlands yesterday.

A number of local people attended the W. C. T. U. Convention held at Pitman M. E. Church, New Brunswick, last evening.
