THE MARTYR

Vocational Teachers Attend Summer School

TRENTON, Sept. 11.—The training courses for teachers and supervisors of continuation school classes, manual arts and vocational subjects conducted at the State Agricultural College and the University of the State of New Jersey at New Brunswick, during the past summer session, under the supervision of the Department of Public Instruction, were unusually well attended, says a statement issued today by the State Department of Public Instruction. The total registration in these courses was close to 200.

JAQUES CALLED AS A WITNESS IN CERTIORARI CASE

(Continued from Page One)

morning for the American La France Company, Edmund A. Hayes for the New Brunswick Motor Car Company, Thomas H. Hager for the city and Russell E. Watson for the prosecutor of the action.

J. L. Matthews, general superintendent of the International company and Leslie J. Johnson, also of the company, were in attendance at the hearing, but neither was called to testify.

Director William C. Jaques of the Department of Public Safety, occupied the stand throughout the hearing and testified as to his qualifications for purchasing fire engines. He testified that he served on the fire committee of the old Common Council, was chairman of the old volunteer fire department and has always taken an active interest in affairs pertaining to fire-fighting.

He testified that the fire-fighting equipment in New Brunswick was broken down and there was immediate need for three pumps. He declared that last February the city had to call on Highland Park for assistance in fighting a fire on Water street. At that time he had an opportunity to witness an American La France engine in operation and he was perfectly satisfied with the test.

He stated it was his intention to use the La France pumps for use in the event of factory fires and for the business section of the city, which is mostly frame construction. He declared a 1,000 gallon pump was absolutely needed for this district.

He testified as to a visit made to Allentown early in the summer on inspection of the pumps of the Mack make. He told of the tests made of the 500-gallon capacity Mack pumps and expressed the opinion that the Mack 500-gallon capacity pumps were most satisfactory.

Normal School Applicants Must Hereafter Submit To Examinations In Three "R's"

(Special Service of Home News)
TRENTON, Sept. 11.—Every applicant for entrance to the normal schools who has graduated from a high school must submit to an examination in the "Three R's" according to a resolution just adopted by the State Board of Education. This action is the result of recent criticism to the effect that high school graduates are deficient in the fundamentals of education. In the normal school tests the applicants must attain a general average of not less than eighty and not less than sixty in any one subject. The first examinations will be held December 16 for those who will enter normal schools at the beginning of the mid-year term.

What Schools Have Done

By JOHN J. TIGERT
U. S. Commissioner of Education
America has made no more noble contribution to civilization than public education. Our school system is "Made in America."

The child of any resident in the Union may pass through the kindergarten to the university, with proper study and the observance of reasonable rules of conduct. The cost is borne by taxation.

So great is the prestige of American education that no important general educational reorganization has taken place during the past generation in any part of the world which did not show the influence of American ideas.

America spends more money for education than for any other purpose and the expenditures for schools are greater per capita than those of any other nation.

As compared with children of other countries the American pupils' personal life is carefully supervised. The air of humility often found in European schools has no place in America. Education here aims at the acquisition of knowledge no more than at the development of character and of independence of thought and action.

Notwithstanding our greater expenditures we are still far behind some of the European countries in essential respects. Even in the cities, where educational conditions are most favorable, there is too much illiteracy. The average for the entire country, six illiterates in every hundred persons over ten years of age, is distressingly high. It is evident that large numbers of Americans do not avail themselves of the advantages offered them and that the compulsory attendance laws are not sufficiently effective.

Also, we have not yet attained

that equality of opportunity for all children which is the first article in America's educational creed. Some of the schools in the sparsely settled districts are still deficient as regards length of term, character of equipment, and qualification of teachers.

JOHN J. TIGERT

that equality of opportunity for all children which is the first article in America's educational creed. Some of the schools in the sparsely settled districts are still deficient as regards length of term, character of equipment, and qualification of teachers.

We have done much, but there is still much more to be done.

BAGONYE SEIZED
IN CIVIL ACTION
AFTER A BATTLE

(Continued from Page One)

were unable to locate him anywhere in the house. They discovered, however, that there was an attic room and they believed he was there.

The door was barricaded, but Deputy Hannah climbed out on the roof and went through a window. Bagonye then rushed right out of the room into the arms of Constable Applegate, who stepped him at the point of a revolver.

An automobile with the engine running had been kept close by to aid Bagonye's escape, a young lady from New York who refused to give her name, being in the machine.

The suit is brought by the David Hall Motor Company of Newark, who claim that Bagonye purchased a new Elgin sedan from them and turned in an old Franklin which he alleged to be clear but on which there was a chattel mortgage to Abram S. Howell of this city.

TWO ARRESTED HERE
ON DRUNKENNESS CHARGE

Leo Kozloski was arrested on French street and Julius Nubz on Church street over the week-end for being drunk and disorderly. Officers Robinson and Harkins arrested Kozloski. He was arraigned yesterday before Recorder Charles E. Tindell and was fined \$10.

Nubz was taken into custody by Officers O'Hara and Rule and fined \$5.

Phi Beta Kappa For Program of Liberal Education

NEW YORK, Sept. 11.—Phi Beta Kappa, the country's leading inter-collegiate fraternity, will consider a plan to conduct an active campaign in behalf of liberal education during the meeting of the society's council in Cleveland, O., tomorrow. Dr. Oscar M. Voorhees, national secretary, announced here today.

According to Secretary Voorhees an anonymous donor has offered to add one-tenth to all funds raised by members of the fraternity during the next five years to create a fund "which shall make possible a larger active work among the colleges and high schools in behalf of liberal education." It is planned also in the event the proposition is approved to use part of the fund to maintain the central organization in New York and to aid in establishing a permanent memorial to the fifty founders of the society at the College of William and Mary in Virginia.

SHOT IN CHIN BY MAN WHOM HE HAD AIDED

(Continued from Page One)

Felix Demargis, Joseph Gramina and a man known as "Mike" had spent Sunday afternoon at the home of Annie Tartagliano on the Stoothoff farm and had been drinking home-made wine and also, it is alleged, moonshine whiskey. At 1 o'clock this morning, the party broke up with the two Graminas and Demargis agreeing to take their newly made friend, "Mike" to his home on De Russy Lane near Brunswick Park.

It was stated by the victim of the shooting that "Mike" was hardly able to walk and they had to assist him to his home. They succeeded in getting "Mike" into his home and were about to leave when "Mike" came to the door with a shot gun and without provocation declared he was going to shoot his three companions. He fired at Joseph, who fell to the ground. The other two men rushed at "Mike" and wrested the gun from him and then brought the victim to St. Peter's Hospital. They left the hospital without giving any details of the occurrence.

A search was made for "Mike" this morning by the police authorities of Somerset county but he had disappeared. The authorities are confident that he will be captured within a few days. An effort will be made this afternoon to extract the bullet from the chin of Gramina.

William Wyckoff is Sought by Daughter

William Wyckoff, your address is wanted by your daughter, Mrs. Ralph John Conrad of 415 Livingston street, Elizabeth, N. J. Mrs. Conrad wrote to the poor department of the city today and made inquiries as to her whereabouts. She made her departure from the city several years ago. Anyone having information regarding William Wyckoff will do well to communicate with Mrs. Conrad.

FALL OPENING

Hirsh's Showing of Autumn
and Winter Millinery

The showing this season at HIRSCH'S is more beautiful and individual than has been designed for many years. Never has the infinite variety and charm of feminine youth and beauty been given a more lovely setting than has been bestowed upon this store this season.

Both in Paris and New York the fashion creators of the world have utilized everything at their command to produce novel effects in millinery that are at the same time simple and entrancing. This is just what we are showing, and our prices are very moderate for the quality of merchandise we are displaying.

OPENING DAYS

Thursday, Friday and Saturday of This Week

Pastor Drops Dead Welcoming Successor

NEW YORK, Sept. 11.—Rev. Dr. William A. Granger, aged seventy-two, for fourteen years president of the New York State Baptist Convention and one of the most prominent Baptist clergymen in the State, dropped dead at high noon yesterday in the First Baptist Church, Mount Vernon, while standing in front of the communion table with his right hand outstretched to receive Rev. Harold Cooke Phillips, the new pastor of the church.

The church, which is one of the largest and most prominent in Mount Vernon, was crowded with parishioners who had come to help welcome their new pastor. Dr. Granger, who had been pastor for many years previous to his connection with the Baptist State Convention, had been selected to welcome Mr. Phillips.

Dr. Granger, apparently in perfect health, had walked to the table facing the altar and was about to congratulate the new pastor when he was suddenly stricken. Death had been caused by apoplexy.

LOSE INFANT DAUGHTER

Mr. and Mrs. Edward White of 199 Neilson street lost their baby girl, Mary, on Saturday night. The baby was born on Thursday. The funeral was held today, interment being made in St. Peter's Cemetery. Mrs. White was formerly Miss Mary E. Weinart.

MISS McDERMOTT BURIED

The funeral of Miss Anna McDermott was held this morning from St. Peter's Church, where a high mass was celebrated by Rev. Father Reilly. The floral tributes were unusually beautiful and the funeral was largely attended.

Liquor Banned Among Ford Motor Employees

DETROIT, Sept. 11.—The 70,000 employees of the Ford plant here are under orders today to refrain from the use of liquor at all times under penalty of dismissal.

"The Eighteenth Amendment is a part of the fundamental law of this country," said Mr. Ford in a statement accompanying the order, "and it is meant to be enforced. Politics has interfered with its enforcement, but so far as our organization is concerned it will be enforced to the letter."
