SENATOR CONGER'S PLEA.

He Asks Suspension of Judgment on Charges Against Allds.

Ithaca, N. Y., Jan. 22.—Senator Benjamin Conger says he proposes to stand by his guns as to the charges he has made against Senator Jotham P. Allds of Chenango. He has nothing to retract and does not propose to shrink. The senator is busy outlining his case and getting evidence together.

"All I ask is that the people withhold judgment pending the result of the senate inquiry," he said. "I wish you would put my request to the people to do me the justice to await the outcome. The hearings will be public, and the whole matter will be thrashed out."

Senator Conger said he did not think it wise to state in advance the nature of his charges against Senator Allds. All he had to say on this point was that he had nothing to retract.

"I do not wish to say what the charges are, neither do I wish to shrink them. An effort seems to be going on to create a sentiment in favor of Senator Allds, and for that reason I am particularly anxious that the people should suspend judgment till the case is laid before the senate."

NEW PAVILION FOR OCEAN GROVE

Summer visitors as well as residents of the Twin Cities will be happily surprised at the improvements now going on when the same shall have been completed at the former Ocean Grove pavilion, now at the new Ocean Grove, the transformation will be so complete that the old pavilion will not be recognizable in the modern new structure, except that portion that will not be rebuilt until next fall, by the time for opening the summer season the new pavilion will have been erected. In its structure and will be an ornament as well as a needed convenience for the entertainment of the summer crowds.

Contractor Taylor & Clark, of Ocean Grove, have demolished the old pavilion entirely—that portion of it east of the boardwalk, at least—and not a stick of the old pavilion remains.

Much preparatory work has been necessary for the new pavilion. For several months the work of driving piling for the new building and also for a spur of the boardwalk has been under way under the direction of Clarence Hagerman, and this part of the operation is nearly complete. Some of the piling already driven are being straightened or moved slightly to conform to the plans. More than 300 piling averaging 25 feet were driven.

The new pavilion will be as large, possibly larger, than the Casino. In general architectural appearance it will be more after the style of the Arcade, especially the arches. There will be two decks—the lower one for booths, stores, and the upper one for visitors. The upper deck will be very large and spacious and will be for the use of excursionists. The pavilion will be open on all sides, but it is so arranged that it can be enclosed if so desired at any time in the future.

To the 80 hot water baths already included in the plan, eight more are to be added on the south. Upward of 50 new bathing houses were added last season. The machinery plant will not be disturbed at present, nor will the portion of the pavilion west of the boardwalk be rebuilt and remodeled.

One of the workmen, carrying a torch, tripped and fell, lighting a fuse and setting off a series of charges of nitroglycerin which had been placed preparatory to an explosion from the tunnel.
