

ANNEXATION BILL FOR MILLTOWN IS PASSED IN HOUSE

(Continued from Page One)

fundamental reasonable arguments against it. Seeing the possible de-

North Brunswick compromise.

The Mayor took into serious consideration the compromise offered by North Brunswick Township and considered that here and the Oak Hill school House was very fair, and as a result he favored only a bill taking in the properties on the South side of the Elkins Lane, the Elks and the school properties, and the small portion of Vanderbilt Manor. It was with instructions to accept this compromise that the Borough Engineer attended the hearing yesterday. It was said today that sentiment aroused in North Brunswick Township against Bill 237 in its original form made it difficult for the committee from that township to even accept this compromise yesterday, but they chose the committee substitute in preference to the original bill. The lines as finally embodied in the bill were those suggested by North Brunswick at the hearing on last Thursday night in the Council chamber.

Owing to opposition created in Milltown on Bill 237, the Mayor also favored a vote of the people and a referendum was embodied in the bill.

For and Against.

It is expected that the following will line up for the bill: The Mayor, H. R. B. Meyers, president of Chamber of Commerce; Harold Schlosser, president of Council; William Han-

Mr. March's letter of resignation is given herewith:

To Honorable Edward L. Edwards, Governor of the State of New Jersey, Trenton, N. J.

"I hereby resign as a member of the Board of Public Utility Commissioners of the State of New Jersey."

"I am not unmindful of the fact that some of the decisions of the board have not met with the approval of those utilities or people who, without regard for the rights of others, or the duties of the board, have considered naught but their own interests. This, of itself, indicates that the decisions have been substantially sound and just, notwithstanding the unpopularity of some of them."

"Realizing the important functions of the board, I feel it proper to state in closing that I firmly believe that the solution of the perplexing utility problems of the day to which the board and its staff have devoted so much painstaking study and thought, has not been aided by (those who, in violation of the fundamental American principle of 'fair play,' have resorted to the abusive tongue without analyzing the decisions of the board and the facts and utility law on which they were based."

"Respectfully yours, ALFRED S. MARCH."

LARCENY CHARGE IS PREFERRED BY FELLER

Charles Smith of John street was arraigned last night in the Police Court on a charge of grand larceny. He is charged by Sergeant Feller of Burnet street with stealing parts of a motor truck.

"Wear-Ever" Special!

1 quart, regular \$1.10 Sautépan and cover 75c with this Coupon.

WANTED—Boy to set up pipes, school and evening, 23 Babcock's Alley, George and Somerset street. Good pay and easy work. m16-17.

Bronchitis, Chest Colds

When "N" tightness appears in your chest and the sharp pains indicate a hot inflammation and congestion you need a hot application right away. Heat your hands, and when you use Deby's Mustajin you get just the right kind of heat—penetrating heat that quickly reduces all congestion and congestion. Apply it tonight and better in the morning. You'll feel lots of relief. It's a grand remedy that all who use it testify to. 30 cents. S. C. Wells & Co., LeRoy, N. Y.

ALFRED S. MARCH RESIGNS POST ON UTILITY BOARD

(Continued on Page Three)

that body entailed absence from his law business here to such an extent that he found it would be financially profitable to sever connection with the Utility Board and devote his time exclusively to his practice.

The retiring Utility Commissioner is a Republican in politics and is ranked by those in best position to know as one of the ablest men who have ever held office on this important commission. He has attended innumerable hearings and united his judgment with those of his fellow-members on some of the most important questions arising in all the history of New Jersey utilities—the soundness of his judgment being repeatedly demonstrated.

In his letter of resignation Mr. March refers to the dismissal of unjust charges against the Utility Board and the delay as regards any legislative action at Trenton. He offers his assistance at any time it may be desired in an impartial investigation of the board, and remarks that solution of the perplexing problems with which the Commission has grappled has not been aided by those who, "in violation of the fundamental American principle of fair play, have resorted to the abusive tongue."

The position which Mr. March resigns pays an annual salary of \$7,500 and his term would have expired in 1923. His successor, who will be named by Governor Edwards, will, infallibly be a Democrat, and already several names are being linked with the position.

Letter to Edwards.

Mr. March's letter of resignation is given herewith:

To Honorable Edward L. Edwards, Governor of the State of New Jersey, Trenton, N. J.

"I hereby resign as a member of the Board of Public Utility Commissioners of the State of New Jersey."

"I am not unmindful of the fact that some of the decisions of the board have not met with the approval of those utilities or people who, without regard for the rights of others, or the duties of the board, have considered naught but their own interests. This, of itself, indicates that the decisions have been substantially sound and just, notwithstanding the unpopularity of some of them."

"Realizing the important functions of the board, I feel it proper to state in closing that I firmly believe that the solution of the perplexing utility problems of the day to which the board and its staff have devoted so much painstaking study and thought, has not been aided by (those who, in violation of the fundamental American principle of 'fair play,' have resorted to the abusive tongue without analyzing the decisions of the board and the facts and utility law on which they were based."

"Respectfully yours, ALFRED S. MARCH."

UNANIMOUS FOR BETTER WATERWAYS AT AMBOY MEETING

(Continued from Page One)

organizations, industries, banks, corporations and individuals may become members of the association. Each city, county and borough may have one of its organizations to be elected as a "controlling" organization member, such as the Boards of Trade and Chambers of Commerce, and so members of these organizations will automatically become members of the Raritan Terminal and Waterways Association.

The government of the Association will practically be in the hands of the Board of Directors, to which is delegated the power of naming committees, adopting by-laws, and arranging for the financing and administration of the association. It is provided that the annual meeting shall be held in January, and the other meetings will be held at the call of the president. It is probable these will be divided between the larger communities interested such as New Brunswick, Perth Amboy and South Amboy.

UNANIMOUS OPINION.

There was a unanimity of opinion as to the need for action in connection with the movement for deeper water in the Raritan Bay and its tributaries, and in all of the speeches made the same sentiment was expressed and the aid of the municipalities was pledged to support the movement in every way. The great benefit that would result in the building of the ship canal was also emphasized.

Major C. K. Connor, the officer who built the Raritan Arsenal, present with A. Bloomfield, of Metuchen. He was asked to say something regarding terminals, and gave an interesting talk regarding a big terminal in Connecticut. He suggested that much might be learned through the National Terminal and Handling Association.

Robert Carson and Mayor John J. Morrison, of New Brunswick, both spoke on the good that would result to New Brunswick and the other towns with the improvement of the river. D. C. Chase, president of the South Amboy Chamber of Commerce, talked interestingly of his experience in fighting for deeper water for more than forty years.

William D. DeY, Director of the Board of Freeholders of Middlesex county, said the Board would support the organization both personally and financially, and he felt convinced that something definite could be accomplished as a result of the consolidation of the efforts. He confirmed the statement that the Chamber of Commerce and Health Officer Crater, of Newark.

Urges "Pep" in Movement.

Albert Leon, the popular Perth Amboy merchant, of the Association to put some "pep" in the movement for better water facilities, and said that if all would get behind the scheme there was not reason why it should not go through. Mr. Bloomfield told of the development of New York City, and said he could see the territory between New Brunswick and Perth Amboy built up solidly. E. L. Blood, superintendent of the Eastern Potash Corporation, said he had selected the site for the big plant that was being built on the Raritan River by his company, and he had faith in the future of this section of the State, as did also his company. He said

STATE HOUSE GETS SCRAP IN 3RD DISTRICT

(Continued from Page One)

result to the party next November. The lines are being closely drawn by the Brown and Gannon constituencies, with each candidate standing on his own merits.

County Clerk Gannon personally called upon Governor Edwards to discuss the political situation in Middlesex county in relation to the delegate fight. He was accompanied by Mayor Frank Dorsey of Perth Amboy, and Postmaster P. H. S. Hendricks of New Brunswick.

There was a rumor afloat at the State House that Sheriff Geran was going to withdraw for the sake of harmony, but this rumor was spiked by State Chairman Charles McDonald of Monmouth county, who is the Sheriff's personal advisor. State Chairman MacDonald returned to Trenton last night after an extended vacation in the South.

Sheriff Geran was not at the State House last night, but in an interview today declared that he was in the race to stay, unless there are unexpected developments. He expressed regret over the situation which has arisen in Middlesex county.

The State leaders of the Democratic party are watching with much interest the fight in the Third District over the delegateship. It is apparent that they are much alarmed over what may develop from the fight and it was intimated today that the State Committee would take a hand in the situation with the hope of bringing about a harmonious understanding.

The candidates for alternates to the convention who have their petitions in circulation are Sulist, W. Lawrence, county Judge of Monmouth, and former Prosecutor Harry L. Newman of Ocean county. It was understood here that Judge Lawrence and former Prosecutor Newman will support the candidacy of State Senator Brown in their respective counties. The names of both men appear on Senator Brown's petition.

Didier-March Plant Brings \$420,000

The plant of the Didier-March Company at Kenney, including real estate buildings, machinery and clay banks, was sold at a public auction yesterday to the Carborundum Company, of Niagara Falls, whose bid of \$420,000 was the highest received.

The sale of the Didier-March plant has been hanging fire for more than a year. The alien property custodian having advertised for bids on it in February, 1919, but when only one bid was received and that was below the minimum placed on the plant no further efforts to sell the plant were made until now.

RENT GOUGING TOLD TO SOLONS

(Continued from Page One)

the weather is severe and a moving would impose hardships, and when in many cases profiteering landlords take advantage of the tenant who has just put in his winter coal and does not care to move.

"The other bill, House No. 199, would stimulate building new homes in the cities of the State by exempting from taxation until 1926 all structures erected primarily for housing purposes which are built two years within the time of the passage of this act. This act would not become effective in any municipality until first approved by a vote of the people."

Among those who appeared in behalf of the measure, particularly No. 200, were Mayor Charles F. Gillen, of Newark, Commissioner Gannon of Jersey City, George L. Record, of Jersey City, Mayor Terrence, of Kearny, Dr. William J. Hanrahan, of the Newark Rent Payers' Association, of Newark, John T. Gregory, of the same body in West New York, Mrs. Robert W. Dolson, Newark, Mrs. Augustus Durfee, Newark, Robert Wallace, for the Jersey City Chamber of Commerce and Health Officer Crater, of Newark.

Urges "Pep" in Movement.

Albert Leon, the popular Perth Amboy merchant, of the Association to put some "pep" in the movement for better water facilities, and said that if all would get behind the scheme there was not reason why it should not go through.
